Extended Warranty Service

When the Warranty
Period Is Just Not
Good Enough

Extend Your Warranty Period

MHL Computer Products can extend your Warranty Period for Refurbished Printers and Scanners.

MHL provides a 90-day Warranty on all refurbished printers/scanners. For a minimal fee, we can extend that warranty up to two years.

Faster Turnaround Time

Our Extended Warranty Service provides quick turnaround times so you know you will get your printer repaired and returned promptly. There's no need to buy spare printers just because your warranty does not meet your business requirements.

Cost-Effective

MHL Computer Products provides service for thousands of printers nationwide. We have a large inventory of spare parts so we can provide this service at very attractive pricing. Since we are adding value to your current warranty rather than providing a full-priced service plan agreement, your additional cost is minimized.

Free Services Estimate

If you're interested in extending your printer warranty, please call us at **800-343-1764** or email at info@bankprinters.com for a non-obligation quotation.
